

PRESS RELEASE NO. 9/2009

Zoner Software, Nove sady 18/583, 602 00 Brno, Czech Republic

Zoner Software Names New Distributor for France

(Brno, Czech Republic, December 4th, 2009) - We are very pleased to announce that on November 23rd, 2009, **ES Technologies** has become the new Zoner Software distributor for France and the French speaking countries. ES Technologies is specialized in hardware and software product distribution. Founded in 2006, its headquarters are located in Paris.

“We selected Zoner Photo Studio 12 from among other photo software because it is one of the very few all-in-one products in the photography sector. We were looking for accessible and easy-to-use software which would be able to adapt to the needs of home users as well as to professionals. Moreover, with the growth of the French digital photography market we wanted a real photo manager that would be strongly competitive right from the beginning.

And finally, we have met the Zoner team, who are great and who definitely convinced us to launch Zoner in France!” said ES Technologies representative Sophie Masson.

We look forward for a long and successful business relationship that strengthens Zoner Software’s position on the French market and brings new business opportunities to both sides.

About Zoner Photo Studio

Zoner Photo Studio is comprehensive software for work with digital photographs. It accompanies users throughout the whole cycle of photo processing, including acquiring, editing and touch-ups, creating effects, organizing, archiving, publishing and sharing their work. Zoner Photo Studio was the first comprehensive digital photo processing software to include support for GPS and for creating 3D pictures.
